### **Arizona Grantmakers Forum presents MULTI-GENERATIONAL PHILANTHROPY: *Building the Next Generation of Donors and Doers***

**WHO:** As parents negotiate the economic crisis, we are sobered to learn that our children currently spend five times more money than we did at the same age. Young people 18 and under will spend—or influence the spending of—more than \$1 trillion dollars this year. In a consumerist society, how do we do a better job of aligning our values with our financial habits? How do we encourage our children to become smarter consumers and to make philanthropy an essential part of their financial lives?

Noted author, broadcast personality and financial expert Nathan Dungan will address these issues—and many more—at the 3rd Annual Art of Giving Luncheon. The event is hosted by the [Arizona Grantmakers Forum](#), a regional association that provides educational resources, research and networking opportunities for grantmakers throughout Arizona. Member organizations make financial grants to nonprofit organizations across the state and represent the interests of private foundations, trusts, endowed community foundations, corporations, government agencies and individuals with organized charitable gift programs.
