ACS estimates are period estimates that describe the average characteristics of population and housing over a period of data collection. Multiyear estimates cannot be used to say what is going on in any particular year in the period, only what the average value is over the full period. For more information about the ACS see [http://www.census.gov/acs/www/data\\_documentation/documentation\\_main/](http://www.census.gov/acs/www/data_documentation/documentation_main/)
