

PHILANTHROPY AT WORK

MAC-RO MEANS MATH SUCCESS

This is the face of a future engineer. She might not know it now, but she'll be ready for the challenging course work ahead in high school and college because she gets to participate in MAC-Ro, the Math Achievement Club by Rodel.

Developed by the Rodel Foundation of Arizona and supported by more than a dozen business partners, MAC-Ro has been proven to significantly raise the math achievement of first- through fifth-graders in high-need communities. Across Arizona, more than 30,000 students are learning to love math with MAC-Ro.

MAC-Ro ensures that teachers teach the curriculum, administrators are best able to support teachers, and parents understand what their children are learning in school. With this strong foundation early in their education, our student's possibilities are limitless.

ARIZONA GRANTMAKERS FORUM is a statewide membership association which provides educational resources, research and networking opportunities for grantmakers in Arizona. To learn more, go to www.azgrantmakers.org.
